Join us for active conversations with students from Eikei University in Hiroshima, Japan. The sessions will be 90 minutes. The first 40 minutes will be an interactive presentation by a scholar in the field on the topic listed above, and then followed by structured conversations in English with students in Japan.

Developing cross-cultural understanding assists in becoming more culturally aware. This can be a continual process and it can help to have curiosity, an open mind, a willingness to ask questions, a desire to learn about the differences that exist between cultures, and an openness to becoming conscious of one’s own culturally shaped values, beliefs, perceptions, and biases.

Cross-Cultural Conversations are Peacebuilding Initiatives brought to you by José Barzola the Conflict and Peace Specialist
